## ABOUT ME

A career shifter in full-stack web developer who is eager to master more skills and seeking out new technologies. I have gained knowledge of HTML, CSS, JavaScript, ReactJS and PHP. Combined with my marketing and problem-solving skills, I would be a good candidate for the Web Developer in your company.

## EXPERIENCES & PROJECTS

### Superlove Fish Trading Website

KodeGo Mini Project

This is my first individual project presented to the KodeGo panelist. I used HTML, CSS, Bootstrap Framework and partly JavaScript. It is my dreamed website for our fish trading business.

### Superlove Bistro Website

KodeGo Capstone Project

It is a complete food order website, where an admin can manage food online order. We used PHP and MySQL database. We are on process of deploying and need more improvements by adding API food search.
